TO THE VOTERS OF
LAWRENCE COUNTY.

Since talking with quite a number of my friends and acquaintances of considerable influence, and believing that I have a good chance to win, I have decided to make the race for Sheriff in 1917. I have never asked for any office before and if the Republican party will assist me in becoming the nominee in the primary I will assure them of victory in the final race. Earnestly and sincerely asking the support of our party, I beg to remain, respectfully yours,
H. B. MUNCY.
9-17-3t.

A. O. Stanley, in an address at Warsaw, replied to attacks on Gov. McCreary and flayed those who have sought to besmirch his record.

Judge Redwine and John H. Waugh are officials of experience and ability and they will be re-elected by at least the normal majority of the district.

Even though the Democrats may feel confident of success all along the line on November 2nd they should turn out in full force. Over-confidence is a very dangerous condition.

Champ Clark declares that the people have absolute confidence in President Wilson, and that they will not drop the pilot of the ship of State in mid-ocean.

When Emmett Logan, formerly of the Louisville Times quit newspaper work and went to his farm he wanted a cook. This is what he advertised for—and got: "Wanted—An old nigger cook for a farm. No milkin'. No washin'. Nothin' but cookin', eatin' and sleepin'."

Next year President Wilson's name will head the national ticket again and Kentucky must be in position to give him a large majority. The result in the State election this year will have an important bearing on what happens then. Democrats should remember this fact as an additional reason for turning out in full force at the election next month.

FLOYD COUNTY'S
RECORD FOR WEEK.

Circuit Court was in session Monday, but adjourned until Nov. 29th.

Hon. A. O. Stanley spoke to a large audience here Monday. He left on afternoon train for Auxier and was accompanied by J. H. Spredlin, W. H. Jones and Judge Gardner. He returned on 3d and left for Wayland Tuesday morning, where he also speaks.

A. T. Patrick also spoke. Mr. Patrick is the Republican candidate for Circuit Judge against Judge Gardner, the Democratic nominee.

LETCHER COUNTY
AND WHITESBURG.

WHITESBURG, KY., Oct. 5.—The Letcher Quarterly court convened Tuesday with County Judge Henry T. Day presiding, a very important term during which several interesting cases will be tried out. The court will be in session the remainder of the week.

Judge John F. Butler will open tomorrow his speaking tour of Letcher county in which he will speak in each of the eight voting precincts of the county. Owing to the fact that Attorney David Hays his democratic opponent of this county was compelled to be in Frankfort he could not accept his invitation to divide time with him.

A goodly number of Letcher county people will hear the Hon. A. O. Stanley democratic nominee for Governor speak in Hindman and Hazard Wednesday and Thursday. It is with much regret that Mr. Stanley could not cover Whitesburg in his campaign in Eastern Kentucky.

Ed Taylor, who was thought to be fatally stabbed during a drunken row at Neon in this county last week by a man named Banks from Morgan county is said to be doing nicely. A gash five inches or more in length was cut across his body, to the hollow, injuring his lungs, according to physicians that dressed his wounds. It is believed now that Taylor will recover.

Uncle Reuben Amberg, good old citizen of the Carr's Fork section of the Knott county border is dead in his home after a long illness. He was a little over 80 years old, being one of the best loved old men in our neighborhood county, and leaves a large number of descendants.

There is continued improvement in the coal mining business over the whole of the Elkhorn field. Considerably more coal is now going down the L. & N. than ever before in the history of the development of this section. It is said the railroad people are now handling over 500 cars a day on the new L. & N. extension between Jackson and Meltober, two-thirds of which is going out from the Letcher county field. Perry county comes in with a good slice of the tonnage. And still the haul has not been told.

It is now said to be practically certain that the L. & N. people will build the much-talked of branch road up Colly creek an important coal and timber section immediately above this city. It is given out that a contract will be awarded within the next 30 days for the construction of the very important branch. Engineers for the past sixty days have been locating the road.

Some rich properties of The Mineral Development Co., The Consolidation Coal Co. and other corporations will be reached by the new branch.

The Coeburn Lumber Co., of which L. E. and Henry Jackson are managers at Maysville in this county have just closed deals on a road sized timber boundary on Sandlick, a few miles from this city and will begin immediately its development. The company's Maysville mill will be moved onto the property. Sam H. Hart of Colly will have charge of the new work at Sandlick.

Whitesburg is starting the work of improvement in dead earnest, building sidewalks, grading streets, etc. At this time sidewalks are being laid down from the First National Bank building along the east side of main street to the M. E. Church building. Other sidewalks besides street improvement are to follow. Whitesburg is keeping abreast of the times, the industrial development of the vast resources of the county. The town will also soon boast of a magnificent new high and graded school building on College Hill, east end, as work is now being rushed rapidly forward by Franklin & Brown, the contractors. Within sixty days the outside brick work will be completed with the inside finishing touches to follow which can be carried on without interference during the wintery weather.

A large number of Letcher county witnesses, attorneys and others left here for Frankfort where they will appear for The Mineral Development Co. against The Kentucky Coal Lands Co. of New York.

The litigation covers something over 20000 acres of rich coal and timber lands lying along Line Fork creek in the southern end of the county, now very valuable, valued at several million dollars. The suit has been pending for some time, considerable money having already been spent in the suit.

Several cases of diphtheria prevails in different sections of the county. Two or three deaths have occurred so far. It is feared that a general spread will result.

Farmers in Letcher county complain of their corn being blown down in the heavy winds which prevailed Friday night of last week. In some sections whole fields were leveled. Other damage reported from different sections, also.

Ah, But They Are
Wonderful, These New
HATS

For Autumn!

Every new shape is represented, every late idea carried out in this collection. There is no monotony, no sameness and the difference between our Hats with hand-work and individual touches and air of refinement, and similarly priced Hats elsewhere is evident to every person of discrimination. The collection is fresh and complete and unusually satisfying.

The prices are very moderate, indeed.

TWO SHOES.

25 CENTS DESTROYS
YOUR DANDRUFF AND
STOPS FALLING HAIR

SAVE YOUR HAIR! MAKE IT
THICK, WAVY AND BEAUTIFUL—TRY THIS!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

SPORT POTATOES.

Mr. Joshua Endicott, of Tug river brought to the NEWS office last week some fine specimens of potatoes which were raised by him from the seed—

not from seed potatoes, but from potato seed. The seed were sown and produced some small potatoes the first year. These were planted, as were the successive crops for five years. The result of the fifth year's planting was large, healthy potatoes. It is in this way that new varieties are produced, as the seed splits into several pieces, and nobody can tell what will be produced. In literature concerning it this production is called "sports."

A LOUISA INTERVIEW

MR. PIGG TELLS HIS EXPERIENCE.

The following brief account of an interview with a Louisa man over six years ago, and its sequel, will be read with keen interest by every citizen.

G. E. Pigg, tinner, Cross St., Louisa, says: "For several years I was subject to severe backaches. I had much trouble in passing the kidney secretions. Sometimes the secretions were profuse, then again scanty and highly colored. Doan's Kidney Pills, procured at the Louisa Drug Store, gave me the first relief I had received. After using this medicine, I enjoyed better health and entire freedom from kidney trouble." (Statement given June 21, 1915.)

OVER TWO YEARS LATER, Mr. Pigg said: "I have been well since using Doan's Kidney Pills several years ago."

How Do You Buy Roofing?

If you are in the habit of asking your dealer simply for some "Ready" Roofing or "Rubber" Roofing, you will probably get a roofing that is not guaranteed, or one made by an unknown manufacturer, or one which will begin to leak a few years after it is put on your roof. You avoid all these risks, save money in the long run, and get a manufacturer's guarantee of 5, 10 or 15 years, according to thickness, backed by the best responsibility when you insist on

Certain-teed
Roofing

Why be satisfied with an unknown or poor quality roofing when you get Certain-teed for only a few cents more per square? By reason of the enormous output of our big mills—the largest Roofing and Building Paper industry in the world—we can sell this guaranteed Roofing through our dealers on a reasonable price basis.
